

Fathurrahman Qarnain

Front End Developer

 Jakarta, Indonesia

I am an enthusiastic college student who is passionate about becoming a skilled Frontend Engineer with expertise in React JS. I possess a solid understanding of HTML, CSS, and JavaScript, as well as various frameworks such as Tailwind, React, Next.js. Throughout my academic journey, I have developed several projects that showcase my ability to produce clean, well-structured, and easily understandable code.

Work Experience

Software Developer • PT. Cakra Wijaya Solusi

January 2024 - May 2024

- Developed an application named 'Cost-Estimator,' which is designed to estimate the cost of a project consisting of modules and module items within the project. This application was built using Javascript as the programming language, Express.js for the backend, MongoDB for NoSQL storage, and React.js for the client side or frontend.
- Developed the company profile website neotech.id using Typescript, Next.js, Axios, TailwindCSS, and ShadCn UI.
- Developed the admin website for neotech.id, which aims for product management. This website was built using Typescript, Next.js, ShadCn UI, Tailwind CSS, and Axios.
- Created custom components in React.js and Next.js to ensure these components can be reused in the future to avoid redundant code writing.

Skills : React.js · Next.js · TypeScript · Redux · Axios · Tailwind CSS · Git · Node.js · MongoDB · Express.js ·

Front End Engineer • PT. Cakra Radha Mustika (KALBE Nutritionals).

March 2022 - June 2023

- Learning to use React-Formik for input validation in TypeScript.
- Utilizing Redux for API state management.
- Building a member website where members who make purchases can exchange their coins at the nearest "Raja Susu" store.
- Source code management using Google Cloud Platform.
- Learning to use Jira Software to track the progress of tasks.
- Building the TadaTools Validator website using Next.js and TailwindCSS.

Skills : React.js · Next.js · TypeScript · Redux · Google Cloud Platform (GCP) · Tailwind CSS · Git · Node.js
